# ENGLISH HOLDING GERMAN OFF

## Britain Threatens Oust Chamberlain From Cabinet Allied Reverse Charged To Umbrella Group

**Nearly 2,000,000 Men Engaged in Big Battle Along 110-Mile Front**

PARIS, June 5.—As night fell French positions were holding all along the line against tank assaults launched in the new German offensive, a military spokesman said tonight. The major Nazi drives were directed against Amiens, Peronne and the Ailette Canal. Nearly 2,000,000 men were engaged in the battle.

### ENGLISH COAST TOWNS ROCKED BY BATTLE DIN

Sounds Of Heavy Explosions On Continent Rattle Windows

By FREDRICK KUN  
 British United Press Exclusive Cable To The Edmonton Bulletin.

LONDON, June 5.—Sends of heavy explosions on the French coast signalled today that Germany's new offensive on the continent was being close to Britain.

The ground shook and windows rattled in southeast England as heavy explosions on the French coast reminded Britons that German legions had launched a new attack. The Somme offensive was considered by British military experts as "sudden" although for a fortnight there had been general speculation about Germany's next move after the conquest of Flanders.

**AWAIT RE-ARMAMENT**  
 One reason for the astuteness with which British military quarters viewed the offensive was the fact that the bulk of the British expeditionary force as well as thousands of experienced French troops were in Britain awaiting re-armament.

Military experts, however, believe that the British will be able to continue on Page 2, Col. 8.

### PARIS WAITS REPORT MORE AIR REPRISALS

British Planes Bomb Ruhr, Destroy Oil Storage, Refineries

By RALPH HEINZEN  
 British United Press Exclusive Cable To The Edmonton Bulletin.

PARIS, June 5.—An announcement of further Allied reprisal raids on Germany was awaited today after a second German night bombardment of the port of Le Havre and the disclosure that Allied planes had bombed Frankfurt, Munich, the German Ruhr industrial area and German bases in Holland and Belgium.

Frankfurt, Düsseldorf, Cologne and Essen were among the German cities that were bombed by British bombers during the night. Four hundred high explosive and incendiary bombs were dropped on a large oil storage depot at Frankfurt-on-Main.

Direct hits were registered on an extensive oil storage plant at Mannheim.

**BOMB FACTORIES**  
 British planes meanwhile attacked the Ruhr sector of Germany—bombing factories, railroad stations and refineries.

In London the British air ministry said that British planes had destroyed at least three big oil tanks at Ghent in Belgium.

Military objective were attacked in the German Ruhr valley at Rheinfelden and elsewhere—the R.A.F. planes centering their attacks on oil tanks, refineries and other targets.

**O'Dwyer Slayer Sentenced To Die**  
 British United Press Exclusive Cable To The Edmonton Bulletin.

LONDON, June 5.—Urban Singh was sentenced to death today after a jury found him guilty of murdering Sir Michael O'Dwyer, former Indian, shot O'Dwyer to death and wounded several other persons in an outbreak of a meeting of an Indian society several months ago.

PARIS, June 5.—French military authorities said tonight they had sprung a trap on the German, catching their tanks in their newly-devised defence system. This new defence system, along the Somme, was not described in detail.

PARIS, June 5.—The French evening communiqué: "The battle engaged this morning was intensified in the regions of Amiens, Peronne and Ailette. The adversary used important forces, especially of tanks and aviation. In general their attacks were checked."

"Our bombers attacked by night important factories at Munich and Ludwigshafen as well as the station of Mannheim. Important forces were seen during these expeditions."

PARIS, June 5.—The semi-official telegraph agency, commenting on the new German offensive, said "the only thing certain is the direction, which is implied by the attacks: the lower Seine and Paris are the objectives sought."

By RALPH HEINZEN  
 British United Press Exclusive Cable To The Edmonton Bulletin.

PARIS, June 5.—Forty-five German divisions, supported by 1,000 dive bombers, 2,250 tanks and 15,000 motorized vehicles, opened a mass attack on a 110-mile front of the new Weingard line at dawn today between the English Channel and the Aisne river, hoping to smash through to final victory and force France, at least, to their knees.

German artillery opened up a terrific bombardment at 4 a.m. Six hundred thousand German infantrymen, 40 divisions, went over the top at 5 a.m. under the bombers which dived shrieking into the Allied line.

At 11 a.m., after six hours of furious fighting in which every man knew that the fate of his country was at stake, the French high command said that it was too early to show any indication of the progress of the battle.

Five mechanized divisions, reorganized from the ten which started the blitzkrieg attack on Holland and Belgium May 10, backed up the German infantry.

**Test Of Man Against Man**

But this was an infantry-artillery battle, the greatest since the world war, a test of man against man, the first real clash of the massed French and German armies since this war started.

The Allies had been waiting for the attack for two weeks. As the German artillery opened its barrage, Allied field guns, long trained, opened up on the German batteries and began laying down a murderous fire on the German front lines.

The Germans advanced, in their favorite massed formations, into the full fury of the French fire, backed now by machine gun barrages which criss-crossed in lines which seemed almost impossible to pass.

**Germans Suffering Enormous Losses**  
 Early reports to the high command were that the Germans were suffering enormous losses. But they came on.

The Allied artillery, high command reports said, seemed to have the edge in firing power, in quantity and quality, up to 11 a.m., and German air losses were reported to be great.

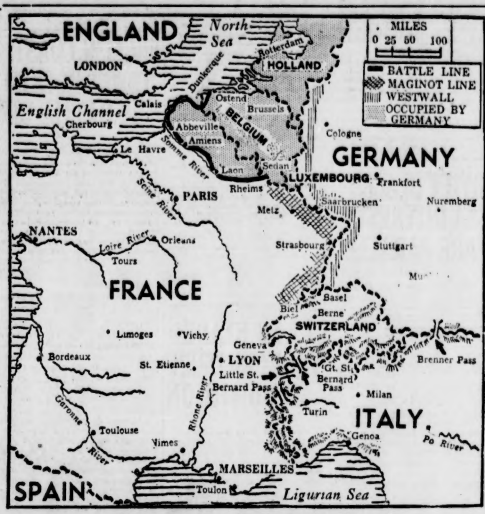

The German attack was general on the entire Weingard front along the Somme-Oise-Aisne line between Abbeville, at the coastal end, and the Laon-Soissons road and the Aisne.

The middle Somme sector and that part of the line east of the Oise, on the German left wing, were selected for the greatest German pressure.

**Natural Corridor Of Invasion**  
 This operation involved the entire sector east of the Oise river, which had been a natural corridor of invasion for centuries of German attacks, including that of 1870 on Paris.

Mittler was now gambling everything that he and Germany had in a bid for a quick, crushing victory.

The wide, swampy Somme provided a strong defensive line for the French and was a natural tank obstacle. Defence.

**As Theatre Of War Expands Southward**  
 The theatre of war expands southward, as Nazi bombers smash at Lyon, Marseilles, and the industrial Rhone Valley. Arrows point out Alpine passes between Italy and France. The Germans today opened their mass attack of 40 divisions, supported by dive bombers and tanks, along the Somme river from Abbeville, shown on this map, to the Laon road. The Germans advanced in mass formation into the full fury of the French fire along the new Weingard line. The middle Somme sector and part of the line east of the Oise were regarded the greatest German pressure.

## Soviet Views Black Sea Interests As Parallel With Those Of Allies

### SUBVERSIVE SOCIETIES TO BE OUTLAWED

Communists, National Unity Party Are On Black List

OTTAWA, June 5.—Outlawing of more than a dozen organizations, including the Communist party and the National Unity party under the defence of Canada regulations, was announced today by Justice Minister Menzies.

These organizations will become illegal on publication in the Canada Gazette of the order-in-council amending the defence of Canada regulations to that effect. Mr. Menzies said. After that publication any person being a member of any of these associations, or groups would be guilty of an offence against the regulations.

**ILLEGAL ORGANIZATIONS**  
 The organizations declared illegal are: Auslands Organisation of the National Sozialistische Arbeiterpartei Deutsche Arbeiterpartei; Deutsche Arbeiterpartei; Deutsche Arbeiterpartei; Deutsche Arbeiterpartei; Deutsche Arbeiterpartei.

The new regulation also provides that in any prosecution under it if it is proved an accused person is a member of an illegal organization, such publicity in advocacy of the organization as a member shall be presumed to be a member, in the absence of evidence to the contrary.

**Noted Doctor Killed**  
 LONDON, June 5.—Laurence O'Shaughnessy, noted Harley Street heart surgeon, has been killed in action, it was learned today. He served with the Army Medical Corps.

### Good Possibility Of Co-operation Between Kremlin And Allies In Near East

LONDON, June 5.—Soviet Russian circles in London said today that Russia views her interests in the Black Sea and the eastern Mediterranean in the light of those of the Allies.

These sources, surveying the international situation, particularly the factor of Italian pressure, in the light of Moscow's acceptance of Sir Stafford Cripps as Britain's new ambassador, hinted that there at least was a good possibility of diplomatic co-operation between the Kremlin and the Allies in the Near East.

France's move to name Erik Satie as French president, general in Tunisia and ambassador to republican Spain, an ambassadorial mission headed by Paul Emil Nagler, also was cited as a factor in improving Soviet-Allied relations.

A Russian source said, however, that Britain "must show by her actions that she is ready to co-operate."

Continued on Page 2, Col. 3

### BRITAIN HAS LOST ONLY 302 PLANES IN MONTH'S WAR

British United Press Exclusive Cable To The Edmonton Bulletin.

LONDON, June 5.—The British air ministry disclosed today that Britain has lost only 302 airplanes since May 2—eight days before the German invasion of Belgium and Holland.

This statement was made in the light of German claims that about 1,800 Allied planes had been destroyed. The British air ministry said that the British Air Force has been more active than the French it was alleged that the total Allied air losses were anywhere near the German figure.

### PLANS READY TAKE CHILDREN IN DOMINION

Canada Will Receive Thousands Young Evacuees And Refugees

OTTAWA, June 5.—Plans have been completed for fullest co-operation between Canadian organizations in receiving and placing throughout the Dominion thousands of refugee and British children when the British and French governments are agreeable to their movement. Mr. T. A. Cresser, minister of mines and resources, announced today.

The agreement for full co-operation between the Dominion, the provinces and child welfare and the organizations reached at the Dominion-province conference, a fortnight ago and Monday when the whole refugee children problem was considered.

The conference was called by Mr. Cresser, and all provinces were represented.

**TECHNICAL ADVISERS**  
 Associated in the conference deliberations were some technical advisers, including the House of Commons today that nine British military ships have been bombed, shelled or machine-gunned by the Germans, despite their unshakable markings.

Continued on Page 2, Col. 4

### Henry Ford To Be Asked For New Warplanes

LONDON, June 5.—The ministry of aircraft production has instructed representatives in the United States to "investigate fully any proposals" Henry Ford might be able to make to the British government in connection with his recent assurance that his company could produce 1,000 aircraft daily within six months.

The disclosure of the inquiry was made today by the ministry's parliamentary secretary, J. J. Dawson.

## War Briefs

PARIS, June 5.—Premier Reynaud will broadcast tomorrow at 8 p.m. (moon M.S.T.).

PARIS, June 5.—It was officially announced tonight that Paris primary schools will be closed, because children were killed in Monday's German bombing of the city.

PARIS, June 5.—Anti-aircraft fire was heard in the southwest outskirts of Paris tonight.

PARIS, June 5.—The French reported six of 20 raiding German bombers were shot down in the western France today. The first was a bomber, crashed near the town of Brest. The others were shot down by the French land offensive against the Somme.

MOSCOW, June 5.—The newspaper "Pravda" Soviet Labor group said today that there are reasons for believing that the United States will not remain passive to the European war and this may be a certain extent due to its result.

PARIS, June 5.—Belgian General Leclerc reported in Belgium Defense Minister Henri Deltour today that about 4,000 Belgian soldiers joined the French forces near the Somme after King Leopold's capitulation.

LONDON, June 5.—Sir Victor Warrender, admiralty financial secretary, said the House of Commons today that nine British military ships have been bombed, shelled or machine-gunned by the Germans, despite their unshakable markings.

ISTANBUL, June 5.—Turkey today ordered the removal of citizens from Istanbul and adopted emergency air raid precautions. Turkish troops will be sent to Syria to defend that area in case of a German attack.

PARIS, June 5.—The ministry of aircraft production has instructed representatives in the United States to "investigate fully any proposals" Henry Ford might be able to make to the British government in connection with his recent assurance that his company could produce 1,000 aircraft daily within six months.

The disclosure of the inquiry was made today by the ministry's parliamentary secretary, J. J. Dawson.

## CANUCKS JUST MISSED ACTION AT DUNKERQUE

Units Of First Division Ready To Move When Order Changed

By EDWIN JOHNSON  
 Canadian Press Staff Writer

SOMEWHERE IN ENGLAND, June 5.—Units of the 1st Canadian Division missed active participation in the heroic Allied defense of the Channel ports against the ruthless German juggernaut last week by a matter of five minutes.

The reason for partial details of a special request recently granted to Major-General A. G. L. McNaughton, general officer commanding the 1st Division, which brought him and a select group of his officers and other staff to the western front in this way.

Although the expedition was launched during the height of the German westward push toward the sea, its nature and scope were not revealed earlier due to considerations of security.

**ON RECONNAISSANCE**  
 Thus only those within the inner circle were aware that the Dominion's number one general was on special reconnaissance in the battle zone, and that Canada's most distinguished soldier was in the order for the Canucks' "kick-off" was withdrawn however for tactical reasons within five minutes of the time.

Continued on Page 2, Col. 6

### Bunf-Jasper Road Open To Traffic June 15

BANFF, Alta., June 5.—The Bunf-Jasper highway will be opened to through traffic on June 15, it was announced today. The official opening will not take place until July 1 in conjunction with arrangements for the Big Bend highway. The opening ceremonies will be held on June 28.

**Great ForeSight**  
 PARIS, June 5.—A Paris shopkeeper, sentenced to eight months in jail for making slandering remarks about King Leopold II, because of his Belgian ancestry, was released on the grounds that the King had died.

"Well, give me my money!" ordered the depositor.

## Dorothy Dix Says:

It is strange that so few wives realize what a dangerous thing they do when they fail to recognize and respect their husbands' pride. This is the more incomprehensible because every mother's daughter of man is born knowing that a woman is the first line of attraction for a man in admiration, making him think that at just he has found someone with intelligence enough to really appreciate him, and see how big and strong and wonderful he is.

The thing that is as necessary to a man as his own importance is his belief in his own importance. If we are wives, let us help him take this away from his husbands.

Every day we hear wives telling how they let their husbands do this, or they won't permit their husbands to do that; how they always make their husbands put on their rubbers when it looks as if it was going to rain, and how they have stopped them from smoking or drinking strong coffee or eating anything but spinach.

They do not seem to see that they are turning their husbands into figures of fun, at whom everybody laughs.

Nor do they seem to appreciate that no grown-up man who has sense enough to make a living and to hold down a good position in the outside world enjoys being treated like a mother-baby.

Perhaps, however, the most disastrous result of women killing their husbands' pride is this: it makes them so sure of themselves that it shows them down and takes away from them their self-confidence, without which no man can succeed.

All of us need to be backed up at times. We need to be praised, and especially do men need their wives to admire them and believe in them. They can stand the knocks of the balance of the world if only their wives still think that they are oracles.

But when Maria gets out her little hammer and hammers her husband's pride into smithereens, when she criticizes his grammar and challenges his statements before people, why is it all over except snoring up the drainage.

The poor husband is done for. She has broken his pride and made him believe himself no good, so he gives up trying to do anything and settles for a pathetic, stoop-shouldered, apologetic failure.

If I understood these things and yet a man's pride made him, there would be fewer divorces.

DOROTHY DIX

## Your Figure, Madame!

By IDA JEAN KAIN

An exercise record to be envied is that of Hilda Burke, well-known singer, who exercises for forty-five minutes daily and hasn't missed a session for two years.

The more lovely celebrities we see, the more firmly we are convinced that the mainstay of beauty is will power—and not a bank balance! Not that jewels, furs and coiffures don't count. They do, we're sure, but not nearly as much as generally imagined.

Take Hilda Burke, the beautiful blonde Metropolitan opera soprano. If you were to pass her on the street, you would certainly turn around to gaze after her. And you might reasonably suppose that "There goes a woman who can speed all the time and money she likes on her looks—and she looks wonderful!"

But if you were to pin Miss Burke down to a detailed account of her beauty program, it is more than likely that you would be disappointed. "Why," you'd say to yourself, "she doesn't do a solitary thing I can't do."

She doesn't! But she knows how important those things are and does them. If you did calisthenics for 45 minutes every morning of your life, you'd be in the same class as Miss Burke. She never misses.

And sometimes she does an additional 15 minutes of stretching in the evening to round out the day. She hasn't missed exercising for two years—not since she had a severe cold and the doctor said not to for a couple of days.

Her exercises are not unusual, but very easy, in the slinky class either. One of her standbys is that sit-down on the floor with the legs straight, and hold the arms straight out from the shoulders in front.

She keeps the back straight, tummy muscles pulled up, "kick" with the right leg and try to touch the right hand, then with the left leg to touch the left hand. Do not move your dress—tiny ones, just for a change, and shaped like half moons. This is that simple floss you can wear any place, quiet in line yet distinctively different. "Put it off with a shining white collar or leave the neck plain for a casual air. A design takes equally well to a print or solid color. A shiny patent leather belt makes a bright accent. Both long and short sleeves are included in the pattern.

Send fifteen cents (for) pattern. Write plainly your name, address and style number. Be sure to state size you wish. Address: Pattern Department, The Edmonton Bulletin, Edmonton, Alberta.

Please allow a week or ten days for delivery.

The New Summer Fashion Book is a "must" for a smart wardrobe. The full color illustrations will help you select your clothes for all occasions. Sent for your copy today. The price is 15 cents.

High-kick inches of the hips.

"I could learn to like ice cream with chocolate sauce and nuts, too," she says reflectively. "But I don't dare!" Therefore, her favorite summer dish is cold spinach with a dash of lemon, and sometimes a drop of oil! "It's a complexion tonic," Miss Burke assures us.

If you have a weight control problem it is not a good policy to eat at night before going to bed. For, as long as regular meal hours is a notorious fat-maker and lunch is the main cause of your overweight. It's worth checking.

There's all there is... that's the program Hilda Burke follows! And if you follow one as enable, you'll wind up by giving beauty hints, too!

Minute Make-Ups

Mother: "I don't know what I'd do without Bill. He loves to do things with me and I'm so lonely since my father's death."

The mother in a broken home must be alert to the danger of satisfying her own emotional life at the expense of her children.

## Your Baby And Mine

By MYRTLE MEYER ELDRID

It is quite natural for the individual who is not well acquainted with the ways of babies to interpret their every cry as due to hunger. Hearing a baby cry makes her think of food and she can only read her own discomfort by giving the child something to eat.

The really astonishing thing is that quite often parents of a truly hungry, half-starved baby, are very slow to recognize his condition. They explain that it is this because he takes after his father's family.

Mrs. A. K. says that her two-month-old baby eats well and is fat but still she thinks he seems hungry, at times. She writes, "It seems strange that after I began to give him orange juice his bowel movements became irregular. When I gave him orange juice before his 6 a.m. feeding it gives him a tummy ache. Should I try prune juice? Should I give him a complementary feeding? If so, how shall I prepare it?"

WEIGH WEEKLY

It is impossible to give a definite answer to your question without knowing how fat is fat. A baby of this age should still be weighed once weekly, especially if things are not going as expected. Then you should have a doctor's opinion as to whether the baby's behavior is hunger-inspired or just ordinary baby-behavior.

To give orange juice on an empty stomach might very well be upsetting to the baby. Nurse only at 6 a.m. and give the juice an hour before the second morning feeding. The constipation of a nursing baby is nothing to get excited about, especially if the gain in weight is adequate. It is only when the baby is on a bottle that it is advisable to juggle the diet so that a daily movement results.

You are confusing the roles of orange and prune juice in the infant. While orange juice may prove laxative it is given primarily for its vitamin C content. Prune juice lacks this and therefore cannot substitute for it.

Now, nothing much seems to need changing except the hour at which you give the juice. If the baby is in need of complementary feeding, his slow gain will indicate it. In such a case I shall be happy to advise you further.

Our leaflet, "Sweet Milk Formulas," contains information on complementary feedings. To get a copy and your request with a three-cent stamped, self-addressed envelope, write to Mrs. Eldred of The Baby and Mine department in care of this newspaper.

Myrtle Meyer Eldred will answer your questions about diet, general care and management of children. If you will send a three-cent stamped, self-addressed envelope, with your letter to Mrs. Eldred of The Baby and Mine department in care of The Edmonton Bulletin.

pur or use a foundation lotion. Be sure to use a clean powder puff when you powder so that you will not encourage blackheads.

But orange juice is really a habit and one she finds useful in weight control. She drinks a glass whenever she feels thirsty—and finds she isn't nearly as hungry when meal-time rolls around. That might be a good reducing tip for you.

Did I tell you that her skin is like the traditional peach, and cream? She has found that the plucky, fatty foods which are so fattening also make blotchy complexion, and she stays away from them.

High-kick inches of the hips.

"I could learn to like ice cream with chocolate sauce and nuts, too," she says reflectively. "But I don't dare!" Therefore, her favorite summer dish is cold spinach with a dash of lemon, and sometimes a drop of oil! "It's a complexion tonic," Miss Burke assures us.

## Chopped Steak Is Tasty Vacation Meal

By MRS. GAYNOR MADDOX

You can't always be sure of the quality of country butcher shop "hamburger." It is wiser to rely on packaged, quick-frozen chopped steak. Most rural stores now carry a good brand in their special refrigerated cases. Allow one 1/2 lb. package for each two persons. Here are two vacation recipes that will taste equally good even if the family stays at home.

SMOTHERED STEAK

(Serves Four)

Two packages (1 1/2 pound) quick-frozen chopped steak, salt, pepper, flour, 1 tablespoon butter, 1/4 cup sliced onion, water.

Season chopped steak (frozen or thawed) with 1 teaspoon salt and dash of pepper and dredge with flour. Sauté in butter in skillet, turning to brown both sides. Drain onions on top and season with salt and pepper. Add 2 tablespoons water, cover, and bake in hot oven (400 F.) 35 minutes, basting occasionally. Remove meat to hot platter.

To make gravy, add 1 tablespoon flour to 1/2 cup onion drippings in skillet, stirring until smooth, add 1 cup water. Place over fire and stir until thickened, stirring constantly. Season with salt and pepper. Serve with meat on platter.

CHOPPED STEAK CUTLETS

(Serves Six)

One tablespoon chopped onion, 1 tablespoon butter, 2 packages (1 1/2 pound) quick-frozen chopped steak, salt, pepper, 1/4 cup sliced onion, water.

Saute onion in butter, add to meat. Sauté meat in butter, add salt, egg, slightly beaten, 1/4 cup milk.

Saute onion in butter, add to meat. Sauté meat in butter, add salt, egg, slightly beaten, 1/4 cup milk.

Saute onion in butter, add to meat. Sauté meat in butter, add salt, egg, slightly beaten, 1/4 cup milk.

Saute onion in butter, add to meat. Sauté meat in butter, add salt, egg, slightly beaten, 1/4 cup milk.

Saute onion in butter, add to meat. Sauté meat in butter, add salt, egg, slightly beaten, 1/4 cup milk.

Saute onion in butter, add to meat. Sauté meat in butter, add salt, egg, slightly beaten, 1/4 cup milk.

Saute onion in butter, add to meat. Sauté meat in butter, add salt, egg, slightly beaten, 1/4 cup milk.

Saute onion in butter, add to meat. Sauté meat in butter, add salt, egg, slightly beaten, 1/4 cup milk.

Saute onion in butter, add to meat. Sauté meat in butter, add salt, egg, slightly beaten, 1/4 cup milk.

Saute onion in butter, add to meat. Sauté meat in butter, add salt, egg, slightly beaten, 1/4 cup milk.

Saute onion in butter, add to meat. Sauté meat in butter, add salt, egg, slightly beaten, 1/4 cup milk.

Saute onion in butter, add to meat. Sauté meat in butter, add salt, egg, slightly beaten, 1/4 cup milk.

Saute onion in butter, add to meat. Sauté meat in butter, add salt, egg, slightly beaten, 1/4 cup milk.

Saute onion in butter, add to meat. Sauté meat in butter, add salt, egg, slightly beaten, 1/4 cup milk.

Saute onion in butter, add to meat. Sauté meat in butter, add salt, egg, slightly beaten, 1/4 cup milk.

Saute onion in butter, add to meat. Sauté meat in butter, add salt, egg, slightly beaten, 1/4 cup milk.

Saute onion in butter, add to meat. Sauté meat in butter, add salt, egg, slightly beaten, 1/4 cup milk.

Saute onion in butter, add to meat. Sauté meat in butter, add salt, egg, slightly beaten, 1/4 cup milk.

Saute onion in butter, add to meat. Sauté meat in butter, add salt, egg, slightly beaten, 1/4 cup milk.

Lunch: Tuna fish and celery salad, hot biscuits, stewed fruit, milk, milk.

Dinner: Smothered chopped steak, mashed potatoes, green peas (quick frozen), tomato and lettuce salad, cup custard with crushed strawberries, milk.

What To Do

I have moved into a new neighborhood. A neighbor called and left her card when I was not at home. Should I call her on the telephone and say I was sorry I was out? Should I simply return the call? What should I do? How soon should a call be returned?

MRS. M. T. W.

Answer:—It is not necessary to telephone to your neighbor, but there is no good reason why you should—and tell her you are sorry to have missed her visit. It is not a bad idea to return the call. If you don't find your neighbor at home, leave your card in return. In general, one leaves a card when the person called on is out. When you find your neighbor in and pay her a visit, she is not likely to forget that she has seen you and you need not leave a card unless you think she does not know your address and would be glad to have it.

New Under-arm Cream Deodorant

Stops Perspiration

Does not irritate skin. No need to dry. Can be used right after shaving. Locally stops perspiration for 1 to 3 days. Removes odor from perspiration.

A pure white, greaseless, stainless, soothing cream.

Approved Seal of the American Institute of Laundering, for being harmless to fabrics.

Hit-Run Driver Leaves  
 Victim Lying Injured  
 On 102 Avenue

Hurtled from the bicycle he was riding home from work at 1 a.m. Wednesday, a cold-blooded hit-and-run car driver at the new Glenora cement bridge, 102 avenue and 106th street, Robert Smith, gas company employee, 19147 165 street, is in the Royal Alexandra hospital in a serious condition.

Smith was rushed to hospital by Kenzie Colvin, 383, Lamarche Ave., who discovered the injured man lying face down about the centre of the bridge. Just prior to finding the injured man, Colvin and a woman companion had noticed a car travelling west along 102 avenue at a high rate of speed with a bicycle on the front bumper. The car was of a new model, Colvin told police.

Colvin attempted to follow the speeding car but was soon outdistanced. He then returned to the bridge and rendered assistance to the injured man. The car was found later alongside the road about three blocks west of the scene of the accident.

Colvin told police he was driving along 102 street, west of the bridge, when he saw a car coming from the east along 102 avenue, with the blue bumper from his car, estimated speed of the car as at least 40 miles per hour.

Smith had been carrying a crate of eggs home with him and, when he was struck, he was covered by the crate and a considerable amount.

City police examined tire marks at cars found near the scene of the accident. Full extent of the injuries suffered by Smith had not been determined at 10 a.m. Wednesday, but an attending physician said that the condition of the injured man was serious although hardly critical. Extensive head injuries and lacerations were suffered, the severity of which are not fully known pending an x-ray examination.

Set. Maj. Riddell of the city police requests the co-operation of all Edmonton motorists in the apprehension of the hit-and-run driver. The car is described as a very late model of either a Chrysler or Ford make and will probably have a blue or green top, or broken headlight bulbs.

Officer Warns Of  
 Poisonous Effect  
 Fifth Column Work

Strong warning against iniquitous propaganda methods of the fifth column and its poisoning of the minds of youths of this country, was issued by Lt.-Col. Roderick T. Washburn, medical superintendent of the University hospital and former officer commanding No. 4 Casualty Clearing Station, C.A.S.F., in addressing the Canadian Corps Association at its regular meeting at the Masonic Temple, Tuesday.

Dr. Washburn recently returned to his post at the University hospital after taking his military service. The members of the Corps Association turned out 600 to attend the meeting. Clyde C. Gillies, vice-president of the organization, presided in the absence of Lt.-Col. F. A. Stewart-Dunn, the president.

This was the last meeting of the Corps Association until the first Tuesday in September. It is possible special meetings may be held. Dr. Washburn declared he felt strongly on the "fifth column" question in view of the invasion it had made in Holland, Norway and Belgium, as well as other countries feeling the heel of the Hun.

He declared the invidious infiltration of the "fifth column" was not so much through the obvious result, such as destruction of roads, bridges and the landing of parachute troops, as through the poisoning of the minds of young men.

He directed attention, as an instance of the deadly influence of the "fifth column," to the recent youth council meeting at the University of Toronto, where 10 delegates voted to continue or approve of Canada's war effort.

The statement, in which the Corps Association took exception was: "Mr. Abernethy said he had asked a number of people what they considered the outstanding problem of the day and from most of them he had received the answer, the war. Contending this was the outstanding problem of the war was the outcome of a problem which was not being solved, that is, a crisis instead."

A brief with a pervious sense of humor, told 2,000 listening blanks that the "fifth column" was the Northern Alberta Railway. To the surprise of the audience, the speaker, who was in the chair for the night Tuesday, said that the "fifth column" was the Northern Alberta Railway.

A resolution was passed asking that the Saturday Evening Post be barred from entry into Canada, on account of the issue of June 1, which it was claimed contained a picture strongly pro-German in its content.

Copies of the resolutions are to be forwarded to authorities. Pres. Peter showed pictures taken during his visit to Victoria last year. He was with King George and Queen Elizabeth.

EDMONTON, ALBERTA—WEDNESDAY, JUNE 5, 1940

CURBS STRIPPED  
 METHODS FOR  
 WAR EFFORT

Ambulances May Be Supplied  
 Action Taken At  
 Red Deer, Calgary

Edmonton's service club executives are giving serious thought to ways and means of contributing to Canada's war effort, and announcement of these plans may be expected in the course of the weekly meetings to be held in the near future.

The Kiwanis Club has been rendering war service for several months and has contributed largely toward camp activities and with a substantial fund for the purchase of C. A. for its war work. Consideration is being given at present by the club of ways and means for the disposal of a substantial sum which has accumulated from the weekly levy on all members.

An appeal was made by Robert Muir, chairman, Edmonton branch, Canadian Red Cross, to individuals and organizations for assistance in repaying these lost in the German drive on Dunkerque. He reported that a similar appeal made in the city had resulted in the promise of six ambulances.

An ambulance, fully equipped, he stated, cost approximately \$2,000. Full particulars regarding make and model may be obtained from Mr. Muir by telephoning 22346 or 4041 at 905 Tegner bldg., Edmonton's Red Cross depot.

Red Deer's board of trade was asked to contribute toward the purchase of a drive for trucks to supply to all other ambulance in response to the appeal.

AROUND THE TOWN

After conferring with the provincial cabinet on various matters, R. V. LeSueur, vice-president of the Imperial Oil Company, has left this city for Calgary.

Edmonton's power plant has turned out 36,611,500 kilowatt hours of electrical energy since Jan. 1, as compared with 27,900,000 kilowatt hours during the corresponding period last year, Robert G. Walton, power superintendent, reported to city commissioners Wednesday.

A brief with a pervious sense of humor, told 2,000 listening blanks that the "fifth column" was the Northern Alberta Railway. To the surprise of the audience, the speaker, who was in the chair for the night Tuesday, said that the "fifth column" was the Northern Alberta Railway.

Suffering from a thigh fracture, T. Langley, employee of Consolidated Mining and Smelters Co., Goldfield, was flown to Edmonton in a Canadian Airlines airplane Monday. Caught in a fall of rock, Mr. Langley was pinned under a large boulder. He received medical attention at the northern mining town, and was flown to Edmonton for hospital treatment.

A plot of justice to a charge of misappropriating \$104 funds of the Youth Hostel was dropped by the court. The charge was entered by George Nikolaychuk, Belia merchant, in supreme court Wednesday. He was remanded until November 18 for sentence by Mr. Justice T. McTavish.

Permit for the building of the new Glenora public school was issued by the city building department Wednesday. The permit was issued to the Edmonton school board and the site was valued at \$125,000.

100 Are Attending  
 Varsity Farm Week  
 For Summer Course

Arriving on planes, motorcycles, buses and trains, more than 100 persons from all parts of the province are attending the twenty-second annual University Week for Farm Young People which opened Wednesday.

Riders' Party of Balise came in on an early T.V.A. plane. Two High River residents, F. C. Fraser and Don Wilby rode to Edmonton on a single trailer motorcycle, making the trip from Calgary in less than six hours.

Because they didn't have too much money to spend Ross Smith and Gordon Sinclair, of Vancouver, started hitchhiking from Calgary and arrived in Edmonton Tuesday.

The farm week is held under the direction of Donald Cameron, director of the department of extension, who had his first contact with the week as a student nearly 20 years ago.

Because they didn't have too much money to spend Ross Smith and Gordon Sinclair, of Vancouver, started hitchhiking from Calgary and arrived in Edmonton Tuesday.

The farm week is held under the direction of Donald Cameron, director of the department of extension, who had his first contact with the week as a student nearly 20 years ago.

Because they didn't have too much money to spend Ross Smith and Gordon Sinclair, of Vancouver, started hitchhiking from Calgary and arrived in Edmonton Tuesday.

The farm week is held under the direction of Donald Cameron, director of the department of extension, who had his first contact with the week as a student nearly 20 years ago.

AIRPORT HERE  
 INSPECTED BY  
 STAFF OFFICER

168 Pupils Likely To Be Trained Here With 24 Large Aircraft

Inspection of progress on the extensions to Edmonton Airport for the Commonwealth Air Training Scheme will be made by Group Capt. G. R. Howson, M.C., Regina, air staff officer in charge of the No. 1 training command, who arrived in Edmonton Wednesday.

Group Captain Howson intimated that the observer school he would have capacity for the training of 120 pupils and that 24 large seaplane ships would be used in their training.

Orders have been given to speed up work on the construction work and active training will likely be under way by the end of the month.

PILOT PUPILS  
 The elementary training school for student pilots is now operating at a capacity of 80 pupils, and training will be done by the Edmonton Aero Club, stated Group Captain Howson.

Here For Visit  
 DR. W. H. ALEXANDER, professor of classics at the University of California and former dean of the faculty of arts and sciences at the University of Alberta, who is visiting Edmonton on route home from the annual convention of the Royal Society of Canada in the city, will be in the city for a few days.

CAST OF CHARACTERS  
ROSSY HARRIS was a victim of a bad cold, a bad mood, and a bad day.  
JIMMY COLLINS, daughter of HANNAH BRIDGER, military wife of Rossy Harris.  
Yesterday, Steve Hagg told Rossy that the Tolliver drew line to decide who was to kill Jay Adams, and Rossy Tolliver was chosen. He said he was going to Rossy's house to see him. Rossy was to see how Hagg got control of the situation in the darkness. Rossy means money.  
CHAPTER VII  
"HUGH Rossy Hagg said the words under his breath, Hannah hurrying along the path through the staid hall, had not heard or seen him. She must have known Hagg was coming from a visit, and had arranged to follow almost immediately. It was essential to think this, but surely she went to all the trouble because she hoped to revive their love by returning to the scene where it had grown into being.  
Then she caught sight of his dark shape by the fence, missed a step, and uttered a cry. "Rossy!" she cried, knowing him almost instantly.  
"How come you're here?" he demanded, and in spite of himself he was rough with her.  
She came up and faced him. "None of your business! But if you think I followed you, you're off your kazi!"  
"That don't leave much of anybody but Cousin Steve!"  
She was defiant. "Well, 'spos it was Steve!"  
"Nothing," he replied.  
"You wouldn't think of maw and paw and my folks, would you?" A voice, "I'm not like you—blood for me is thicker than water!"  
"That don't you mean by that crack?" he wanted to know.  
"We're one of these here college students that when they're in a-b-b-b they've got to have teacher say. There's a-b-b-b. I'll play teacher and tell you I came home because I knew you'd be seeing Steve Hagg and he would tell you about Dr. Tolliver and how your puppy was killed that time. And I know you'd not believe it because in no time at all they had you wrapped around their little fingers down there at the school."  
"I know—I haven't been watching you, but I've seen, just the same. So you would tell Steve he was a liar, and you'd go back and lap up what they fed you, and that would be the end of a second-hand dog of doing the right thing. Well, all I got to say to you, Rossy, is now you know I hope you're satisfied."  
For a moment Rossy breathed heavily, saying nothing.  
"I told Steve he was a liar, all right. Well, I haven't heard of you yet to make me change my mind about it."  
"I reckon you wouldn't believe any word I said."  
"You must say it and let me see if it's a word that my judgment told me could be believed."  
That made her mad, convinced Rossy that she had really followed him just to see if she had trouble.  
"All right!" she cried. "Then here's the word. What Steve was telling you about the Tolliver having a meeting one night just before that Fourth of July game was no lie. They had such a meeting and Sock Tolliver—Dr. Tolliver to you—was there, and they drank lots, and Sock got the call to kill your puppy. You see, it was Steve himself that seen it and overheard the whole thing."  
"Steve!" Rossy said in a dull voice, too dazed for a moment to believe the girl who was telling him.  
She knew she had him going, and her laugh was a sound he never forgot. "All right, now I reckon you'll call me a liar."  
"But how do you know it was Steve?"  
"Well, since you called him a liar, I reckon you won't believe me when I only tell you what he told me. I'm going back on my word never to tell it. But maybe the Lord will forgive me. It's a good cause, and that was the way it was."  
"That night Steve was following one of the Tollivers. He had a gun and he aimed to kill him a man. His first man. But instead of ambushing him, he just followed, and came to the house where they were all meeting, and he got in the chimney corner and listened through a hole in the ceiling. He saw it all, every bit and heard the whole plan."  
"Sock looked like a ghost, Steve said. He hadn't been in mourning since a boy. He didn't know much about our ways. He didn't know what to do. Knowing Sock was to pitch that game, they told him to take your puppy and make it seem like an accident. And that was what he did, and that was the way it was."  
"Rossy sank down on a stump close by, and Hannah seemed against a tree, laughing harshly.  
"Well, I reckon that'll make a good boy out of you! Now what you aim to do about it?"  
"Look like I've got to kill me a man."  
"In her temper she was panting. "If there's a speck of manhood in you, that's about all that's left!"  
For a moment they stood there with a sense of embarrassment. Rossy wanted to excuse and did not know how to manage it. He realized that she, too, wanted to get away and was waiting some kind of consent from him. It dawned upon him, all at once, that he was not really on her way to visit him—her meeting here had been as much a surprise to her as to him; the one she was really hunting was Cousin Steve Hagg, whom she must have expected along the trail.  
Rossy said, "I had started along this way to see a fellow—"  
"I thought you was going to my house."  
"No, Sam Hagg!"  
"Well, I—"  
"It'll be seeing you," he said, and moved quickly away in the darkness, she could go where she would for all of him.

still it, if he sold it at all! Just what is back of all this?  
"I've just come from the ridge, and somebody's timbering out all the first class stuff, all the prime hickory, and poplar and white oak. And I know who it is! It's Steve."  
"Well, how come? Don't you reckon that might be mine after all? There's something sinking up the creek and I come to you to find out what it is!"  
(To Be Continued)

Man Chagrined With Attempting Evade Exchange Rulings

CLOVERDALE, B.C. June 5.—Andrew Simlak of New Westminster, B.C., a Czech-Slovakian, late yesterday was charged with attempting to evade Exchange Control Board regulations by taking \$2,700 in Canadian currency out of the country without a permit. The charge was laid against Simlak after he was intercepted Monday by Royal Canadian Mounted police near the international boundary south of here.

Happens There Too

## Patriotic Action Unit Formed Across Canada To Work For Security

Formation of the League for Patriotic Action across Canada is proceeding according to word received in Edmonton Tuesday from Col. K. P. Marshall, acting chairman of the organization.

## CITY RALLIES TO GIVE HELP BLANKET FUND

Supplies Used in Last War  
Received; Couple Make  
Sacrifice

Blankets and cash for the purchase of blankets are needed by the officers of the Edmonton branch of the League for Patriotic Action. The appeal recently made in the city to help out in the hospitals in France, and aid the 1,000,000 refugees from devastated areas.

Chairman of the Edmonton branch, Robert Muir, reported Wednesday that a large number of new blankets have been received at the Tupper Building desks of the society, and more than \$100 has been received in small donations for the purchase of blankets. More phone calls are to come in daily with promises of aid.

**NEW AND OLD**  
At the appeal desks in the basement of the Cattle Block, the Jasper Avenue nine new double 24 x 36 inch, six used and one new single blanket and cash to purchase blankets have been turned over to the Cattle Block desk of the society.

One of the pairs of blankets left at the appeal desks were those of a widow of a returned man, who died from wounds received in the last war. The blankets had been used by him while overseas in the 1914-18 war, and he had returned with them when turned over by his wife.

A parcel of five blankets were left by two returned men. They too, had used the blankets while overseas during the last war, and they included the pillows in "had used."

One pair of new blankets was given by an Edmonton couple. The husband received a job about the middle of the year, and he had with him, spent \$3.50 for a pair of blankets, which were turned in to the blanket desk in the basement of the Cattle Block.

## ARMED ROBBERY ATTEMPT DRAWS PRISON TERM

Found guilty in Supreme Court Tuesday, the Mr. M. J. Tweedie on a charge of attempting to rob Herbert Henshell, Thorburn, while armed. Jack Henshell, district resident, was sentenced to serve three years in Prince Albert penitentiary.

Evidence adduced by Crown prosecutor J. W. McCallum, who said that Henshell, on the night of November 1st last, came to the Henshell store and asked for a pack of cigarettes. When the pack was handed to him, he demanded the cash or he would blow up the store. He said he had sufficient nitroglycerine to blow the building to pieces.

Appearance of Henshell's father armed with a rifle frightened accused and he fled after firing a shot from a revolver into the store. He was arrested by R.C.M.P., and was taken out of the store in a parade at the Edmonton barracks. Mrs. Henshell identified the accused by hearing him speak, but picked another man up in the identification parade. She stated she was "not sure of the man."

Evidence of the accused that he was not on the scene of the hold-up, and of relatives that he was visiting them when the Henshell store was held up, was not believed by the court.

**Lieu. F. J. Baker**  
In Signals Corps:  
Goes To Kingston

Son of J. D. Baker, manager of the Alberta Government Telephone Co., Ltd., "Red Barber" of Calgary, has left for Kingston, Ont., to enter the signal training centre as a recruitment officer for the Royal Canadian Active Service Force. He was second in command of the 1st Battalion, R.C.S.C., of the non-permanent militia, and has completed the special training course offered by the unit during the past nine months.

Lieu. Baker was born in Edmonton and attended the University of Alberta, taking electrical engineering. He has been employed by the provincial telephone company and has considerable experience in construction and mechanical work which will be useful in any signals work.

**Travellers Meet**  
Thirty annual delegates of the grand council of commercial travellers being held in Calgary on Friday and Saturday will be attended by many Edmonton travellers and their delegates from the provinces of Saskatchewan and Alberta, and from the United States are expected to attend the sessions. Official representatives of the Edmonton branch of the organization are J. M. Cunningham, J. A. MacLean and David Miller. Women's auxiliary of the council also will meet and Edmonton delegates are: Mrs. B. C. McCann, Mrs. J. M. Cunningham, Mrs. J. W. Williamson, Mrs. M. B. Taylor, Mrs. T. Stevenson, Mrs. D. Stevenson, Mrs. M. B. Miller and Mrs. C. McCann. Many others are expected to attend from Edmonton and districts.

## MORE THAN 50 PUPILS JOIN 3 WAR UNITS

More than 50 students in city high schools are serving with the Canadian fighting services—army, navy and air force—according to J. A. McKee, superintendent of schools, who has compiled a list of 51 pupils who either joined up after enrolling at the schools last September or would have enrolled in September but had they not enlisted.

The honor roll does not include the names of graduates of the schools who have joined the forces. Mr. McKee is attempting to compile the compilation of names of school graduates who are serving, but who are necessary to have it up to date until next fall.

Practically all the students who have joined up are from 18 to 21 years.

## CANADA READY TO DO PART IN ALLIED CAUSE

Canadian industry and labor are prepared to do their part in winning the war, F. C. Brown, Vancouver, president of the Canadian Manufacturers' Association, declared here before leaving Tuesday night by plane for Vancouver. He was returning from the annual meeting of the C.M.A. at Winnipeg.

Mr. Brown believed Canada might be the deciding factor in the war, but he was confident that the nation would be mobilized in the Allied cause. Declaring that the country must create a war spirit, the businessman said Canada would have to work night and day if the situation were to be won.

"We must measure up 100 per cent to the task that is before us. I think we can do this, but we must work with our might and mind complete harmony between industry and labor," he said.

All industry and labor stands ready to answer the call, he said, and complete harmony between business and the government would have to be maintained for a concerted war effort.

Mr. Brown is president of the Canadian Western "Goshawk" Co., Ltd.

**Business Activities**  
One of the inspection of western agencies, Col. J. A. McCann, Toronto, superintendent of agencies for the National Life Insurance Company, arrived in Edmonton Wednesday. He is accompanied by Mr. E. J. Staples, branch manager.

The league recognizes that only parliament can recognize the war effort, and it is the duty of parliament to strengthen members of parliament who have the confidence of the people by enacting laws of national-wide support.

The league believes that the city of Canada is fully equipped to the need for the most vigorous war effort, and that the necessary sacrifices of whatever nature, financial or otherwise.

The league intends to submit for its proposal as occasion arises and to enlist the co-operation of the various national groups and organizations in Canada as well as citizens at large in the support of such proposals.

The headquarters of the league are at Cavendish House, King Edward street, Toronto.

## CAMP LIFE CAN TEACH RELIANCE PARLEY IS TOLD

Camp life should serve boys and girls as a means of using nature in caring for oneself and learning to be self-reliant, said the president of the provincial Scout Association, addressing the closing session of the camp directors' institute Tuesday evening at the Hotel Bay.

The conferees held Monday and Tuesday, was under the auspices of the Edmonton Council of the Scout Association.

Representatives of the national Scout Association, which held camps at the nearby lakes during the summer months.

"Camp life should mean more to the child than merely living out of doors and away from the bustle that makes up city life," said Mr. Johnson, addressing the conferees on "Recreation." The child must be taught to look after himself, using the material at hand to make himself comfortable and to enjoy the outdoors.

Mr. Johnson stressed the importance of teaching handicrafts to the children in camp. "Our camps can become places of education and at the same time open the path for greater and better camps."

Representative of the Edmonton Scout Association, Mr. J. A. MacLean, addressed the conferees on "Food," outlining the different requirements for the various types of camps.

Speakers during the opening session of the conferees Monday were: Mr. T. R. R. M.C.A., general secretary, and Mr. F. MacLean of the Girl Guides' Association, and Crawford Gray of the Edmonton Scout Association, speaking on the subject of present day camping, health, and safety, respectively.

Wednesday's road report—Rain last night and morning today. Dry roads are drying fast. All main highways are fair to good. The Peace River road is all good.

## SERVICE IS REVIEWED AT "Y" PARLEY

Organization Meeting War Demands, President Tells Meeting

An impressive record of service in the community life of Edmonton and in 1939, and boys, together with members of Canada's armed forces, was reviewed at the annual meeting of the Y.M.C.A. held in the dining room of the Royal George hotel Tuesday evening. About 100 persons attended the gathering at which President O. McNeilyne presided.

The inspirational address was given by Rev. Daniel Young, of the First Baptist church. Mr. McNeilyne was elected chairman of the Y.M.C.A. board of directors for the ensuing three years. Other members elected were J. G. Nicholson, H. A. Garrett and L. H. Irwin.

Members slated to retire in 1941 are G. H. Smith, J. G. Budd, Hales H. Ross, James Taylor and W. F. Emory. Serving until 1942 will be R. A. Gordon, C. D. Gainer, Rex Martin, Andrew Downes and H. Davey.

## REMANO GIVEN FOR SEDITION COUNT HEARING

Frank Pittelge, Italian-born Jasper Avenue postman, was convicted by Magistrate Miller Wednesday of uttering statements contravening the Defence of Canada regulations, and was remanded until Thursday morning for sentence.

Statements were made to several persons in the postroom occupied by accused since January 1, last, according to evidence given at trial. Chief witnesses for the crown were former employees, a veteran of the French army in the last war and a private of the Edmonton Regiment.

"I am satisfied that the statements charged against you were actually made by you," the court stated in ordering a remand for sentence.

In urging that accused be convicted, Crown Counsel C. G. Parvise, urged that the statements be taken into account in the light of the needs of boys and men," declared R. G. Rose, general secretary of the Y.M.C.A., in his report.

A decrease of more than \$500 in the capital stock of the Y.M.C.A. during the past year was reported by the annual statement. An increase of more than \$500 in disbursements during the past year, over the previous season, was also noted.

Following the meeting a presentation of officers and a watch was made to Fred Youmans, physical director at the Edmonton "Y," who is leaving for special service with the Royal Canadian Air Force. Tribute was also paid to V. A. Porter and H. J. Radcliffe, retiring members of the board.

## City Funeral For Victim Of Calmar Shooting Mithap

Calmar, June 3.—Funeral of William Williams, 16-year-old Calmar boy, will be held Thursday from 10 o'clock to 11 o'clock in the Broomfield cemetery. His family formerly resided in Harbourside.

He leaves three brothers, one at Rock Lake, and one in Edmonton, and a sister in Edmonton. The boy failed to recover from a wound he received when he was accidentally shot in the stomach while playing with a 12-year-old Robert Engberg in the Calmar district last Saturday. While he was examining an old 22-calibre weapon a shell in the breech exploded, wounding him. He was rushed to the University hospital here but succumbed early Tuesday.

**REMANO GIVEN**  
FOR SEDITION  
COUNT HEARING

Frank Pittelge, Italian-born Jasper Avenue postman, was convicted by Magistrate Miller Wednesday of uttering statements contravening the Defence of Canada regulations, and was remanded until Thursday morning for sentence.

## RECRUITING OF NEW UNIT OPENS HERE

Men Enlist For Composite Alberta Rifle Battalion Wednesday

Recruiting was commenced at the Prince of Wales Hotel at 9 o'clock Wednesday for the composite Alberta rifle battalion for inclusion in the 4th Division, C.A. R.F. according to an official announcement.

Two Edmonton companies are to be included in the composite battalion, one from the Edmonton Rifles (M.G.) and one from the Rifles (M.G.).

The battalion company will be under command of Lt. Col. H. S. Davies, E.D. officer commanding the regiment and the Princes company will be under Lt. Col. Harold Wright, officer commanding that regiment.

It is expected that about 80 men who attended the Battalion (Infantry) class during the winter will be enlisted, while, with other specialized men, such as tradesmen, the company will be brought up to about 100.

Capt. Leslie Smith of the Fusiliers, who will be second in command of the Fusiliers company, will be in charge of the Fusiliers company. Recruits will be brought up to about 100.

A light rain driven by a heavy wind, fell in the city about 7 p.m. Wednesday. The sky was clear until midnight. The sky was clear until midnight. The sky was clear until midnight.

The men will be under army discipline and will be in Calgary for equipment and training before being posted to their areas.

**WOMEN OPEN  
OFFICE FOR  
WAR SEWING**

Accepting the challenge to national service which the seriousness of the European situation has created, members of the Edmonton Women's Conservative Club have established a sewing machine in the basement of the Agency Building, Jasper Avenue, at which old clothes will be made into new and new garments for refugees from the battle torn countries of Europe.

An appeal, being made by Mrs. T. D. Plimington, president of the association for clothing that could be made over and for material from which new garments could be fashioned. Contributors are asked to send the clothes being sewed there at the depot.

Loans or donation of sewing machines are asked for also. The office will be open from 3 to 5 p.m. daily, and as work proceeds, it will be kept open to keep the office open all day.

Some of the work will be done at headquarters, which is located at 1000-10th Avenue, while other members stated they would undertake work in their homes.

**Temperature Is  
Taking Rise As  
Forecast Fair**

Temperatures in Edmonton continued to rise Tuesday as the mercury began its slow upward climb in summer temperatures. Thursday's maximum was 69 above, while the minimum was 49 below.

"Fair and probably a little warmer" was the forecast for Wednesday. The sky was clear until midnight. The sky was clear until midnight. The sky was clear until midnight.

The committee approved a recommendation of Superintendent H. G. McCallum, who had investigated personally conditions at the Forest Heights school, and found no justification of conditions regarding the elimination of intermediate classes in both schools as the increased expense for facilities would be impossible of maintenance, the committee decided.

W. G. McCallum stated that he had investigated personally conditions at the Forest Heights school, and found no justification of conditions regarding the elimination of intermediate classes in both schools as the increased expense for facilities would be impossible of maintenance, the committee decided.

## PETITION FOR NEW SCHOOL TURNED DOWN

Increase in Enrollment Must Come Before Steps Considered

Forest Heights residents who petitioned for a new intermediate school will have to await a large increase in enrollment before such a step can be considered. This was the recommendation made at a meeting of the management and health committee of the Edmonton school board at a meeting Tuesday.

At the present time Forest Heights district students in Grades 7, 8 and 9 have to attend the Riverdale school. If accommodation and a large room were available for these students at Forest Heights, however, the school board would be eliminating of intermediate classes in both schools as the increased expense for facilities would be impossible of maintenance, the committee decided.

W. G. McCallum stated that he had investigated personally conditions at the Forest Heights school, and found no justification of conditions regarding the elimination of intermediate classes in both schools as the increased expense for facilities would be impossible of maintenance, the committee decided.

## Looking Them Over

By Jack Kelly  
Rain, Whoopee  
Cones For Hits  
Tribal Power

FOR the second straight day, Central Alberta League baseball was rained out yesterday when a heavy downpour finally made the Arena and Dodger out after three and a half innings at Renfrew Park. On Monday night the scheduled game at Weiskewin was rained out after part of the first inning.

Last night's game was scorching at the time it was called—and mighty fine baseball too despite the weather conditions. Umpire Ducey had to drive the players with an iron hand to keep them playing as long as he did—especially Laurel Hamner who started a revolt against Ducey's reign that ended the last inning being played in the dugout.

The good crowd on hand last night was striking evidence of the rapidly growing interest in this frisky new league. Whisked looking clouds came up half an hour before starting time and it was almost a certainty that the game wouldn't be finished, but just the same a good crowd of fans were on hand.

The next game at Renfrew Park will take the form of a big whoopee evening on Thursday with the Ponoka Stumpers here. Ponoka will be out to en masse, or just about, to support their club. Some 25 car loads of spectators are coming up to give the city slayers a lesson in red-hot rooting. At the same time the invaders want to remind folks here that the big Ponoka Stumper is on July 1. This redo is the reason every people spirited citizen in Ponoka is wearing a full old-time beard and western ambience.

As part of the whoopee, Ponoka is bringing up some sort of weird contraption they have dubbed a bucking car. It will gallop around the diamond after the seventh inning and is guaranteed to put the junk on the Arena whether or not they happen to be landing at that stage of the game. It is also likely to pile a few interlopers Ponoka citizens high into the bleachers.

### Baseball, Kids and Ice Cream

GEORGE E. WATERS, 20-year-old Salem, Ore. merchant who once played a lot of baseball, spent \$30,000 on a park to be given to Salem team in the Western International League. He says, though, that he "just did it for the kids."

Waters' model minor league park includes a bleacher section for 1,000 youngsters. All they have to do to get in free—work hard on their studies and do a good deed at home every day.

Waters has a special agent who checks up on report cards—a poor one means the boy doesn't get into the park. He says he's not trying to make any money—"All I want is just to make expenses—and give the kids a break."

Jim McNeil tells me of a Chinese friend of his down at Crestfield where Jim once rode the range as a cowboy, who has organized a midwest baseball team. The Astute Oriental reminds each kid as he gets to bat that he gets an ice cream cone for each base he hits for. Furthermore this Chinese generalissimo keeps track of the hits in a note book which is kept beside the ice cream cone in his cafe.

"Those little fellows hit like the New York Yankees for three months," says Jim. "It keeps them out at batting practice from morning until night. Most of the kids already have a cone credit pile up on the cafe that will keep them going for most of the summer."

How about it, Mac Boy?

### Source of Tribal Power

CLEVELAND was the only American League club that was able to remain in position yesterday. They split a twin bill with the Senators and clinched it within half game of the leading Boston Red Sox.

The source of this powerful drive by the Indians is their pitching. Al Smith, the glacial castoff that the Indians rescued from the minors, now last night's game—his fifth win without a defeat. Al Smith, another left-hander, has won seven and lost only one. Bob Feller has won seven and lost two.

Not even Cincinnati Reds, who were credited with having the hurting staff in the majors this season, can produce three top-notch pitchers like these Indians.

### Easy For Minico

TOHOTO, June 3.—Minico Mountaineers trounced Fergus Thistles 11-4 last night in a regular Ontario Lacrosse Association fixture. It was Minico's second victory in as many starts.

### Rain Halts Game

Battlefords and Airdrie Aces were rained out of their Girls' softball game Tuesday night at Kingsway stadium before the first inning was completed. No scoring had resulted.

## Wide Open Competition Outlook For United States Open Golf Laurels

By HENRY SUPPER  
United Press Staff Correspondent  
CLEVELAND, June 3.—The National Open golf championship ship today was shaping up as one which might be just what the name implies—a wide-open scrap for the most prized title in the game.

The tournament starts Thursday over the long and treacherous course in the Canterbury Country Club. And the weather has done so many things to the course that trying to put your finger on one man and saying "there is the fellow to beat this year," is tougher than falling inside straight.

For almost a month the weather has been very damp and today around the locker room the boys were saying that unless the sun—which finally came out good and hot yesterday—plays out all week, the winners might take the title with the highest 72-hole score in five years.

PAR 3 TOUCH  
The course is 8,921 yards long and it has a par of 72 which under good conditions is hard to beat. But despite yesterday's sun the fairways are soggy and the rough resembles nothing better than a chunk of the everglades, so par seems safe this time.

If there must be a favorite, then the best bet is likely Ralph Guldahl, winner of the Open in 1937 and 1938. Ralph has been more than a week out of the familiar with the course despite the fact that he has been on speaking terms with every blade of grass for several years.

GULDahl, REAL THREAT  
Back in 1937 Ralph tied with Horton Smith for the western open title with 268 and won a play-off. And Guldahl has been giving the course a careful study for a week. The last two times he did that—Birmingham, Michigan, and Denver—Guldahl walked off with the trophy, the first one at Birmingham in 1937, with a record of 281.

The general consensus around the locker room is that the man who beats 280 will win the trophy this time. That would make the winning total the highest since 1939 when Sam Snead, Jr. won with 289 at Oakmont, Pa.

WOOD DANGEROUS  
The golfers themselves like Guldahl, Sam Snead, Ben Hogan and Craig Wood because of their length off the tee. And the man they fear most is Wood, recent winner of the Metropolitan Open with one of the most sensational scoring bursts in history.

Wood is the perennial runnerup and this might be his year. At Philadelphia last year he tied for first place with Denny Shute and Ben Hogan, and he finally yielded the title to Shute after a double play-off.

There is a tremendous feeling of camaraderie among the wives while their husbands are fighting to retain their world championship. When Martin Russo, who pitched the final game, got temporarily afflicted the wives all turned to Mrs. Russo and offered her the game to Shute after a double play-off.

## Brilliant Finale To End Long Career

TONIGHT they will ring the curtain down on the Edmonton Grads for the last time.

At 8:00 p.m. the Grads will start the final game of their career against the bright Chicago Aces, one of the finest teams to ever play here.

When the gong finishes his game, the Grads will have written "finals" in the most amazing record in the history of Canadian sport. They will never again play as a team after tonight.

Thursday night the Grads officially end 23 years of unparalleled basketball with a dinner and dance. At this event they will be presented with the Underwood trophy, emblematic of international supremacy, which they have held for 18 years against the finest opposition that the United States could muster. This coveted bowl becomes the permanent possession of the Grad Club and will remain in the well-filled trophy room.

CHANCE FOR CAMERA FANS  
The world-wide interest centering on tonight's game is shown by the fact that Lucien Roy of the Associated Press News, Montreal, is here to film it. Roy has had special lighting installed at the Arena to permit him to make his "shots" of the Grads. This lighting will prove a magnet for hundreds of amateur photographers who have long wanted to get action shots of the Grads but have never been able to owing to the poor light at the Arena. Tonight any good camera will be able to get pictures under the increased light.

Among other features carded for this grand finale of the world champions will be the announcing of the winner, or co-winners, of the \$300 cash prize the Grads are giving to the fan who named the five most popular Grads on the ballot given out at the last few games. To get the cash, you have to be present tonight. The order of popularity is being determined by the votes of the fans.

THRILLING GAME IN PROSPECT  
But apart from the sentimental aspects of tonight's game, it also promises a brilliant display of basketball that should provide brute appetites. Grads won the final game of the present series 56-34 by virtue of a sensational scoring spurt in the last few minutes. They won the second game 48-36, but they were behind several times and the result was always in doubt.

Here are a few final statistics you can bring up to date for keeps after tonight. This game will be the 54th that the Grads have played. They have won 532 games, scoring a total of 19,000 points in them against a total of 8,821 scored on them. Veterans of the team in number of games are Margaret MacBarny with 182 games and Blaine Martin with 142 counting tonight's affair. In 23 years of major competition, the Grads have lost only one championship series—the Alberta title to the University of Alberta in 1921 when the Grads lost the services of Connie Smith through a technicality, and the North American championship in 1933 when the Durant Cardinals won three straight from the Grads.

McGraw Paid Well  
There was so much talk of outstanding Grads going where they could drag down more money with superior aggregations that President Quinn accused four rival clubs of tampering.

MacBarny, he makes what \$10,000 or \$15,000 and a player who can't hold a regular job in exchange for a few bucks.

"Contenters think they can turn to us on the Phils, and vangle—practically nothing—the one player they need to make a sure shot," said Quinn. "I don't know where we're down in the race, they think we're up against it."

"If any of these teams want to win, why don't they make a real picture. Like John McCreary would do, gamble on picking up the guy who can't make what the price, and selling him off the following season if need be."

McGraw Prefers Quantity  
"I've got a guy I know and I just about make a certain team in league a pretty sure shot for the flag."

"Tony Cuccinello is 32, but what a team player. You wouldn't choke him up or change him to be with a team. A sweet defensive player who wherever you put him, and he hits and drives in runs."

But the Grads refuse to pay \$100,000 for Eddie Miller. Brooklyn has not closed for Max West, Philadelphia, it wouldn't let him go, and Bill Ponder, who was with the Grads, is still on the Boston payroll.

Brooklyn paid American League clubs \$11,000 for a half dozen American League outfielders.

But Larry MacPhail refused to dig deeply for Max West, who would be a good bet to put an end to most of this trouble.

It seems that in the outlying moments Larry MacPhail prefers quantity to quality.

Sports . . . Roundup  
By EDDIE BRIZET  
Associated Press Sports Writer  
NEW YORK, June 3.—Eddie Brizet's eighth anniversary as manager of the Giants. Only Bill McKechnie has been a N.Y. player longer.

This week's dance cap is awarded catcher Billy Birmner of the Yakima (Wash.) club. . . With the bases loaded, he let a pitch get away. Instead of rubbing back and retrieving the ball, he turned around and asked the umpire for a new one. While all this was going on, Lou Gehrig was in the dugout.

Jack Kearns has joined the Louisville Cardinals. He was in the line-up for Louisville to watch his step. . . Maureen O'Sullivan has been in all for 10 years, says Clarence Collet Ware was far and away the greatest of female golfers.

Young Jack Gibbons has wisely decided it takes more than a name to become a ring rider and now is Minnesota's chief boxing referee. . . Mike in the white bubble soap, old Mike, hustles for a suds bandy.

**PATTERN PUZZLES**

Fig. 1 shows a sample **PATTERN PUZZLE** representing a floor design of square tiles, symmetrical about both entire axes. By observing the exact positions of the few black tiles and bearing in mind the symmetry of the design, it is possible to complete the pattern by blacking in corresponding white squares in each of the four parts.

Fig. 2 shows the method of solving, with the left side complete and the right side shaded in to show the **PATTERN**.

Now, following the same method, fill in the designs of the

There is only one correct, symmetrical answer for each, and we will leave it to your own judgment as to how well you complete these patterns.

**ANSWER TO YESTERDAY'S PUZZLE, ZUFFERS AND ZEAKLES:**

A. If there are over 1,000,000 ZAFFONS, each having not more than 50 ZUFFERS, there must be at least 300,000 with equal quantities of ZUFFERS. (For there cannot be more than 10 ZAFFONS with
